KALENDARIUM

The Marist Kalendarium for 2021 is ready and is being sent out with this SMbulletin. As usual the Kalendarium is distributed by the General Secretariat in digital format only. We recommend each unit to print the Kalendarium locally and distribute it among confreres.

Provincial of Mexico

Following on the support given to him by the members of his province in a recent consultation, the Superior General has confirmed Fr Alejandro Muñoz as Major Superior of the Province of Mexico for another term of three years, beginning on 1 January 2021. Alejandro was General Assistant from 2009 to 2017, and has been serving his province as Provincial since 2018.

20 YEARS OF LOGOS

LOGOS, the Marist Youth Development project from the province of New Zealand, celebrated its 20th anniversary on 12 October. Logos was started by confreres from the province of New Zealand, trying to develop a new pastoral outreach to young people focusing on faith and service. The aim of LOGOS is to help young people to develop their spiritual life based on prayer and liturgy and to help them to reach out in service to others, through practical help, mentoring, and support.

The celebration brought together different generations of people who have had a part in creating, forming and continuing the story of The LOGOS Project. Pictured here are the founding members, Frs Patrick Breeze, Kevin Murphy and Joe Savesi, at the celebration.

For more information on the LOGOS project: www.logos.org.nz.

IMPROVING OUR ECOLOGICAL FOOTPRINT AT THE GENERAL HOUSE

Work is in progress at Villa Santa Maria (General House) to conserve water. A new system is being installed to collect rainwater from the roof and store it in the area by the old chicken coops for use in irrigating the gardens. In the same trenches new drinking water and electric power connections are being laid to facilitate other uses and functions of the gardens.
